Saturday 25th May 10:00a.m.—2:00p.m.

To celebrate a milestone in our project to decarbonize our village hall, and in partnership with other environmental groups, we are holding an event to raise awareness of what is happening in the environment and the efforts made by so many to protect it for future generations.

We hope the following organizations will be involved so please come and see what is happening in the environment and perhaps you too will be inspired to make a difference.
